

Traditional Gazebos & Pavilions

*(Top photo) The 23' pavilion offers a panoramic view.
(Above) This screened Traditional 16' Gazebo with single tier roof is shown with Victorian brackets.*

Celebrate the natural beauty of your back yard by adding a Garden Getaway Gazebo. In 12', 14' and 16' styles, traditional gazebos are available in a variety of stained or painted finishes and roof options.

Our pavilion (shown above) offers its own stately grandeur, yet remains perfectly at home in a natural setting. The 12-sided construction offers a truly panoramic view of lakeshores, wooded lots or beautifully landscaped plots. Large openings allow warm weather air to flow through freely and easily, adding to the spacious individuality our 23' pavilion has to offer.

All of our products are delivered and assembled by our crews. A 3 to 4 man team can typically have your new Garden Getaway Gazebo assembled on site within 6 hours.

12' gazebo with Victorian brackets, optional screening and double doors with door closure.

Our 23', 12-sided Pavilion includes an all clear span ceiling, 2x6 western red cedar rafters with 1x12 knotty cedar ceiling, cedar shakes and cedartone exterior stain.
